

Data

To address the problem, the following data were used:

1. Areas in Gurgaon represented by different pin codes. (scraped from <https://gurugram.gov.in/std-pin-codes/>)
2. Coordinates (latitudes and longitudes) of the pin codes representing Gurgaon. (extracted from https://www.google.com/search?q=coordinates+of+pincodes+of+gurgaon&rlz=1C1CHBF_enIN883IN883&oq=coordinates+of+pincodes+of+gurgaon&aqs=chrome..69i57j0j7&sourceid=chrome&ie=UTF-8)
3. Average plot price in different areas of Gurgaon (extracted from 99acres.com, propertywala.com)
4. Exploratory data representing top 10 most visited venues around an area. For ex. Cafes, ATM, etc around Palam Vihar. (Data received by making calls to Foursquare API)
